FOREWORD

In presenting this work to the public, the publishers have endeavored to provide accurate and up-to-date information pertaining to the industrial, commercial and educational development of Oshawa.

Other useful data is included for the convenience of readers, as well as a Business and Professional Buyer's Guide, which will prove useful as a handy reference work for those who do the buying and consulting.

In this, our first effort to produce a work of this nature for Oshawa, we have probably committed errors of omission and commission, but in order to reach ultimate perfection in our annual issue of this edition we will ask you to bear with us,

In the words of Shakespeare:—

“Gentles, do not reprehend,
If you pardon, we will mend.”

The publishers are indebted to the City and Public officials for their courtesy and co-operation, and also to the manufacturing, business and professional interests for their support.

—The Publishers.

OSHAWA'S FULLY MODERN HOSPITAL

OSHAWA

OSHAWA was incorporated as a city in 1924. OSHAWA, situated in Central Ontario, with a population of 25,000, is a centre of specialized industries, the largest industrial centre between Toronto and Montreal. Served by Canadian National and Canadian Pacific Railways, and is on the Provincial Highway System. As a distributing centre it is unexcelled.

OSHAWA'S growth, during the past few years has been rapid and substantial, mainly attributable to the cheap, constant power from the Hydro-Electric Power System and surplus available, shipping facilities for reaching all markets economically; good labor conditions, and a city of workmen's homes and fine residences.

OSHAWA has a street railway, filtration plant and waterworks, collegiate institute, public and private schools, commercial college, modern hospital, fine parks, handsome churches and public buildings and two theatres. The city enjoys efficient fire and police protection; in fact, all conditions suitable for business, health and pleasure.

OSHAWA is particularly fortunate in that it has a splendid modern hospital to care for the sick. The General Hospital is in the category of approved or standardized hospitals. This means that it measures up to the requirements, thus assuring that as far as equipment and efficient administration can aid in the work of this hospital, these features are adequate. The medical staff of this institution is well organized and has close supervision over the essentials of good service.

OSHAWA is within sixty miles by road or rail from the famous Kawartha Lakes, noted for their small-mouthed black bass and maskinonge.

OSHAWA'S industries are diversified in character, predominant amongst which is the General Motors of Canada. This organization employs between 5,000 and 6,000 hands in the manufacture of automobiles and trucks. Constant building expansion at this plant has been necessary to meet the requirements of production; this applies also to other industries, which include the following:

THE PEDLAR PEOPLE LIMITED, manufacturers of metal shingles, metal ceilings, metal lath, metal culverts, expanded metal reinforcing, eavetroughing, conductor pipe, ventilator pipe, metal cornices, etc.

W. E. PHILLIPS COMPANY LIMITED, manufacturers of mouldings, picture frames, mirrors, art novelties, automotive glass specialties, windshields, plate glass, table tops, shelves, picture and window glass, picture dealer's sundries, also sole Canadian distributors for VIORAY GLASS, the new health giving glass which permits the passage of valuable Ultra Violet rays.

THE SCHOFIELD WOOLEN CO., LIMITED, manufacturers of underwear,

ONTARIO TEXTILES CO. LIMITED, manufacturers of plushes and velours in wool, mohair, cotton and silk.

CENTRAL SPRINGS CO. LIMITED, manufacturers of steel springs for automobiles.

THE ONTARIO MALLEABLE IRON CO. LIMITED, manufacturers of pipe fittings, automobile castings, agricultural implements and parts, castings in brass, bronze or aluminum for various purposes.

FITTINGS LIMITED, manufacturers of screwed malleable and cast fittings, flanged fittings, drainage fittings, railway fittings, rex unions, stop cocks, chain, gate valves, conduit fittings, etc.

THE ROBSON LEATHER CO. LIMITED, tanners and manufacturers of leather for shoe uppers and chrome patent leather.

WILLIAMS PIANO CO. LIMITED, manufacturers of pianos, grand pianos, player pianos, benches and stools.

FELDSPAR GLASS CO. LIMITED—manufacturers of glass bottles and containers. This plant is situated on Ritson Road North and occupies a floor space of approximately 25000 square feet.

In the process of manufacture the raw material is first crushed in a crusher from minerals mined at Bathurst, Ontario, then conveyed into an elevator to the top of the building and fed by machinery into the furnace. Finished glass then comes through an automatic feeder, which in turn, supplies the bottle making machines. It is then automatically conveyed and placed on trays inside an annealing furnace which tempers the glass to the desired quality. The bottles are picked off by experienced packers who examine, pass and place the finished product on a gravity conveyor ready for shipment.

The glass is manufactured from Feldspar instead of Silica sand as in the old process.

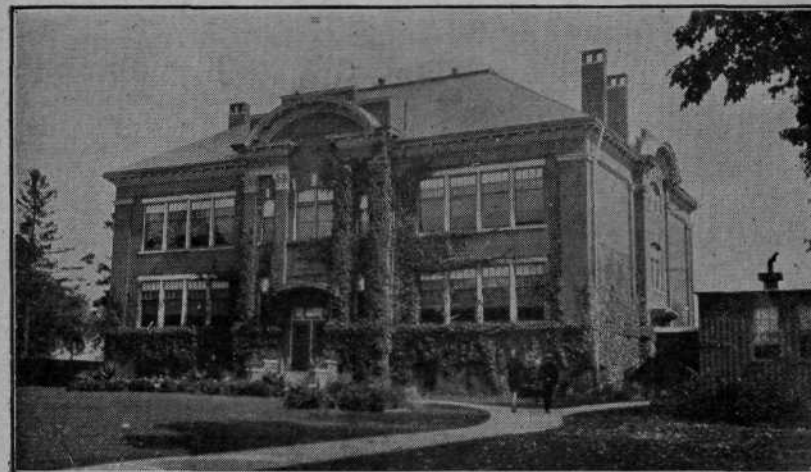

Feldspar Glass Co. Limited have the distinction of being the first concern in the world to instal an all electric process in the manufacture of glass.

HAMBLY BROS.—Manufacturers of Carbonated Beverages.

The importance of industries in Oshawa is evidence of the city's advantages, the factories have been enlarged again and again.

OSHAWA'S population has more than doubled during the past ten years and payroll has increased from \$2,000,000 in 1917 to approximately \$11,000,000 in 1927.

OSHAWA has a modern electric street car service which is operated by the Oshawa Railway Co. In addition the city is served by a well organized motor bus transportation service which makes connections to facilitate travel to practically any point in the province.

COLLEGIATE INSTITUTE, OSHAWA

OSHAWA has a number of fine parks, chief amongst which is Lakeview Park, containing 65 acres bordering on Lake Ontario. Constant improvements are being made to keep pace with local demands and to meet the needs of picnic parties as well as tourists.

Alexandra Park covers 25 acres and is the site of Oshawa's Annual Fair. Central Memorial Park contains 5 acres, and being located near the heart of the city was chosen as the logical site for one of Canada's finest war memorials.

Rotary Park also covers 5 acres and is admirably situated to serve its purposes. In addition there is Cowan's Park with 6 acres under development as well as several smaller parks and beauty spots.

Oshawa Young Men's Christian Association is one of the most important institutions in this city. It stands for service and sets a high value upon the city's greatest asset, boys and young men.

Eighteen years ago the Y.M.C.A. was erected largely through the interest and support given by the late Mr. Robert McLaughlin, founder of the McLaughlin industry, who was its Charter President.

The building is situated at 55 Simcoe St. South and occupies three floors and a basement with additional space given over to a gymnasium, showers and swimming pool. The dormitories accommodate 24 men who make it their home when away from home. Its parlours are used for meetings by some 26 religious, athletic, social and labor organizations of the city.

The gymnasium is a constant scene of activity by boys of all ages, senior members, also a number of church groups and scouts.

Hundreds of new comers to the city visit the Y.M.C.A., seeking advice, information, employment, boarding places, etc.

Mr. L. W. Petley is the General Secretary, and Mr. A. Ingham is the Boys' Work Director.

Owing to the rapid growth of the city, the National Council of the Y.M.C.A. has recently taken a survey of the work and it is expected the result will be a larger addition to the present structure to ensure a greater and more efficient service.

CITY OF OSHAWA

Board of Health

John Gibson, Peter A. MacDonald, D. A. J. Swanson, Dr. T. W. G. McKay, M.O.H., and the Mayor.

Park Commission

Dr. F. L. Henry, A. J. Stalter, R. S. McLaughlin, W. A. Coad, F. E. Hallitt, H. E. Bradley and the Mayor.

PLANT OF FITTINGS LIMITED, OSHAWA

JUBILEE PAVILION, LAKEVIEW PARK, OSHAWA

LAKEVIEW PARK was purchased and formerly owned by Thos. Henry, grandfather of Dr. F. L. Henry, who cut the bush and cleared the land on the farm then called the Town Farm. Dr. F. L. Henry's father eventually bought the farm now known as Lakeview Park and the stone house which to-day still stands as testimony to the sturdy construction of that period of nearly a century ago.

At the death of Mr. Henry Sr. the Town Farm was deeded to his son Joseph Henry, who eventually moved to California and sold the farm to the Town which built a septic tank to take care of the sewage. He gave to his son William Henry the farm at the lake, which was sold later to Mr. Charles Robinson, son of James Robinson, a partner in the firm then known as Robinson and Laughlin Tannery.

The Town of Oshawa which had been making progress and growth up to this time, always had some very thinking manufacturers, among whom was the McLaughlin Carriage Company which had a reputation throughout the Dominion of building the finest carriages in the British Empire and whose slogan was "We build one grade only, and that, the best."

It was about the year 1906 that it occurred to some members of the carriage company that the day age was about ready to enter into a new form of vehicle other than carriages, and in the year 1907 Mr. Robert McLaughlin and his sons, George and Sam, together with Mr. Oliver Hazlewood, who was then connected with the carriage industry, considered the time had arrived to enter the larger field of manufacturing horseless carriages. The business at that time had made some advancement in the American Republic, but no automobiles had been made in Canada. Thus they sold their carriage business to the Brockville Carriage Co. and started in 1907 the groundwork of the automobile industry which was then known as the McLaughlin Automobile Co.

Their carriage business was enormous, and they had large holdings in every city from the Atlantic to the Pacific which they eventually sold to the General Motors Corporation of America, but retained large interests in the Canadian concern. Mr. Sam McLaughlin was elected as President of the Canadian end of General Motors, a position which he still occupies.

The McLaughlin family, who have always been most loyal to Oshawa, thought that one of the things much needed was some out of door area for the use and pleasure of citizens. Through their good offices, the General Motors Corporation purchased the lands known as the Henry farm and presented them to the Town of Oshawa.

The park, at this time, as far as having any formation of a park, consisted of 50 or 60 apple trees which Mr. Thomas Henry had planted some 80 years ago. These old apple trees have served, up to the present time, as shade trees in the park, but several hundred trees have been purchased and planted since, and are augmenting the purpose as shade, as the old trees are dying out.

These grounds, under the supervision of the Parks Commission, have been kept in the most attractive and clean condition for many years until now they are the means of attracting many people from the City of Toronto and surrounding points who find this delightful spot the ideal place to spend their holidays or week ends.

Last year the Parks Commission undertook the erection of a pavilion which was constructed without cost to the rate payer, as the concessions therefrom in the rental of park and pavilion, fully met the debenture debt and all overhead expenses.

VIEW FROM THE HILL SHOWING LAKEVIEW PARK IN THE DISTANCE

Facts Respecting Factory Location In Oshawa

CENTRAL SITUATION

An industry should have a central situation to facilitate reaching the markets expeditiously, and with the shortest shipping distance. Oshawa, Ontario, is situated in the centre of the population of the Dominion, and is, therefore, admirably situated in this respect; more so than any other city in Canada. Being located between two great commercial centres, Toronto and Montreal, it is excellently located for reaching these markets.

SHIPPING FACILITIES

Oshawa is served by two Canadian Railways, the Canadian National and the Canadian Pacific Railway. The city is served by many passenger trains daily, besides an excellent freight service. The Oshawa Railway operates seven electric locomotives to take care of freight service and the placing of freight cars on private sidings at every plant. The importance of this service is apparent from the fact that this company handles about 350 freight cars daily.

LABOR CONDITIONS

A few facts regarding labor conditions are especially interesting. The population of Oshawa is 25,000. Labor of all kinds is easily obtainable from Toronto and adjacent points.

POWER SUPPLY

Electric power is delivered by the Hydro-Electric Power Commission of Ontario to the industries and the rates are low. Realizing the necessity of an available surplus of power to meet the expansion of existing and new plants, Mayor R. D. Preston and Council succeeded in obtaining from the Power Commission a second line to run from Port Hope to Oshawa, thus doubling the capacity now available. To further improve voltage regulation the Commission will install a line Synchronous Voltage regulation.

FIRE PROTECTION

Oshawa has an excellent waterworks system. Water is pumped by two electric units and two steam units and an adequate supply is assured at all times. The fire department is well equipped and has motorized apparatus. Fire losses in 1917 were \$125,000 and \$18,000 in 1926.

LOW OVERHEAD

Land excellently situated for manufacturing sites is obtainable at moderate prices and the assessed values are consequently attractive. This with good fire protection and power, and other advantages, provides a condition for low overhead expense.

BANKING FACILITIES

There are seven banks in Oshawa. These include branches of the leading banking institutions in Canada which have branches throughout the Dominion and facilities for transacting banking business the world over.

SANITARY CONDITIONS

The water supply is filtered by the best modern method. There are 38 miles of sewers and 43 miles of water mains.

LOCAL TRANSPORTATION

The Oshawa Radial Railway is electrically equipped and gives a good system of local transportation.

OTHER CIVIC SERVICES

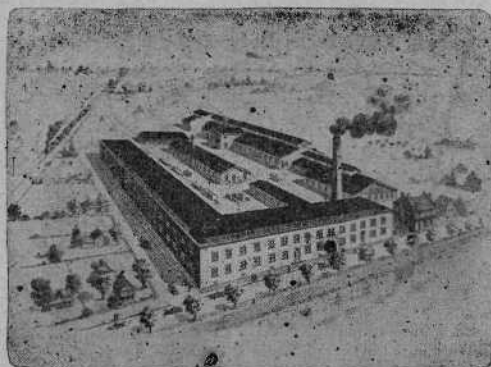

Oshawa has a large and well equipped modern hospital. There 74 miles of permanent side walks and 23 miles of paved roads. A provincial highway and provincial county roads connects with neighboring cities and towns.

MANUFACTURING SITES

There are a number of excellent manufacturing sites available in Oshawa with railway and civic conveniences including land held by the city for industrial purposes.

CIVIC POLICY

It is the policy of the City of Oshawa to facilitate and encourage the establishment of manufacturing industries in the city and it is owing largely to this wide awake and aggressive policy on the part of the municipality that the manufacturing expansion and progress of the city has taken place.

PLANT OF ROBSON LEATHER CO.

Oshawa Welcomes The Tourist

Whether you come by car or rail, you come to Oshawa. Whether you are a resident of Canada or a neighbour from across that invisible boundary line to the South you will find in Oshawa a spirit of friendliness and courtesy.

Oshawa, which practically borders on Lake Ontario, has many beauty spots. Accommodation, both hotel and private, enables the tourist or traveller to take full advantage of the many features of interest to be found. Lakeview Park—as the name suggests—is situated on Lake Ontario, just a few minutes drive from the City. It is equipped to meet the needs of tourists, picnics, parties, conventions, etc. A large new pavilion called Jubilee Pavilion was erected in 1927.

Lakeview Park, 65 acres in extent, affords ample opportunity for camping, picnics, bathing and sports of all kinds. An up-to-date service is established to provide meals, refreshments, etc., as well as Sunday Concerts. The management plans many new innovations to increase the already great popularity of this beauty spot. In Oshawa tourists will find many fine stores to meet their needs in merchandise, sporting goods, souvenirs, etc. The hotel and restaurant service is of the quality demanded by the visitor.

Oshawa's location is unique from the tourist standpoint. It is just 32 miles from Toronto on Provincial Highway System and about 50 miles from the Trent Waterway—internationally known—of which the famous Kawartha Lakes form a part and where noted anglers sojourn year after year to enjoy the lure of battle with rod, line and gun.

In Oshawa and environs one finds entertainment for every whim—bathing, boating, golf, tennis, dancing, fishing, etc., and when in the mood—rest—all flavored with the invigorating and health giving fragrance of the fir and balsam.

It was an American who said last Summer "Ontario hospitality is wonderful." And he was from the South—that far famed land of hospitality.

Oshawa welcomes the tourist. Whether you spend a day or a month in our midst, come anyhow. Let's get acquainted.

GRAND CAFE—KING ST. E.

BATHING BEACH LAKEVIEW PARK

CONVENTION AT LAKEVIEW PARK

PICNIC PARTY

LAKEVIEW PARK, OSHAWA

LAKEVIEW PARK is 33 miles from Toronto on Provincial Highway and is becoming more than ever recognized as the ideal spot to spend a vacation. Lying just south of the City of Oshawa and bordering on Lake Ontario, its natural setting and advantages offer the tourist the facilities he is looking for. The popularity of this park is more apparent every year, as evidenced by the fact that many conventions, picnic parties as well as tourists are now making this beauty spot their annual rendezvous.

Ample space is available to provide for the many diversified forms of sport, recreation and camping. A friendly reciprocity validates an American license plate in the Province of Ontario for a generous period. Freedom from congested traffic brings restful relaxation and rare opportunity to enjoy nature's open spaces.

FEATURES:—

The new Jubilee pavilion is equipped to give a wide service. Refreshments of all kinds are supplied as well as an up-to-date restaurant service which provides lunches and first class meals, and where quality and service is the first consideration.

Recreation facilities include dancing, boating, bathing, fishing, children's play grounds, swings, etc., also sports of all kinds for adults. Sunday concerts are a feature.

A fine automobile tourist camp is provided for those who prefer this method of spending a holiday.

There is an abundance of camper's supplies always available, such as groceries, ice cream, confectionery, tobacco, cigars, souvenirs, books, magazines and the many other sundries necessary to the personal comfort and enjoyment of the vacationist.

Conventions and picnic parties are especially invited to visit Lakeview Park where they will find the utmost in the essentials that go to make these affairs a success.

Plan to visit Lakeview Park, Oshawa, this year and let your car bring you unexpected pleasure. Rich in romance, impressive in modern achievements, this park will give you a never-to-be-forgotten vacation, where clear days of glorious sunshine and cool, restful nights bring health with every breath. Any person or party contemplating camping, picnics or conventions will do well to phone 2500, or apply 24 Simcoe Street South, Oshawa, where any further information will be gladly given.

WHY IT PAYS TO BUY IN OSHAWA

Citizens of Oshawa and the surrounding district have a market that perhaps they fail to fully appreciate, and how much seller and buyer depend on each other is another point not given thoughtful consideration.

That foreign buying is mostly the result of thoughtlessness and usually turns out unsatisfactory is also true.

How different when you buy at home. For example, you want dry goods, and in Oshawa you have an array of most excellent stores, whose combined stocks in the line you are looking for, are much greater than any one big store could offer. That means a better choice, and you have a chance to look over as much of it as you wish, feel it, see it, match it, fit it on, have it altered and delivered to your door, only after being made entirely satisfactory to you.

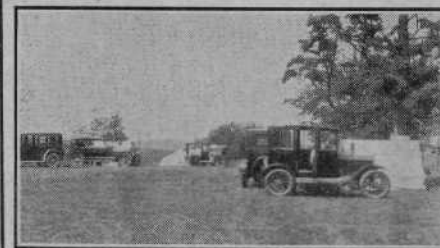

Regarding the matter of price—and here it is only necessary to consider that our home merchants are competing not only with each other but the catalogue houses. They buy only goods they can endorse to the full, because you, as their customer, must be pleased, and to do that they are obliged to give you a full 100 cents value for every dollar, or lose your trade.

BUY IN OSHAWA

Should be the slogan of every citizen. The merchant pays a large proportion of the city's taxes, which pay for the improvements and upkeep of the place that is home to its residents. Every dollar spent away from home that could be kept in the city is just so much hindrance to its advancement. Everyone likes to live in a progressive town, and the way to keep Oshawa on the go is to **PATRONIZE HOME PRODUCTS**. It will pay in every way—helps the manufacturer—helps the merchant—helps the town—helps you, because in Oshawa you buy not only goods but service and satisfaction as well. Therefore,—**Buy in Oshawa.**
